

Simulation Technician Seminar

The Simulation Technician seminar will provide assistance to health care simulation technical support personnel with the preparation, programming, and operation of high-fidelity mannequins for use in simulation-based health care education.

Objectives:

1. Review the use of simulation in healthcare education.
2. Review mannequin specific features and capabilities.
3. Review the procedure for powering on/off mannequins.
4. Discuss setting the scene for simulation.
5. Discuss basic scenario programming.
6. Describe running a scenario.
7. Discuss mannequin maintenance and troubleshooting.

Location

The WELLS Center at 1999 N. Fitzsimons Parkway, Aurora, CO 80045
